# Life Lifted

**JIFU was created to support a concept called “life lifted”.**

An important purpose in life should be about lifting lives—including our own. Our lives are lifted when we experience other cultures through travel, when we improve ourselves through education, and when we choose to live a healthier lifestyle.

We believe all people should live richer, more productive lives, and JIFU works every day to make that a reality.

A man and a woman are enjoying a scenic view from a white dome. The woman is sitting on the edge of the dome, wearing a white dress and a white hat. The man is standing next to her, wearing a white shirt and shorts. They are both looking out over a vast blue sea towards a range of mountains in the distance. The sky is clear and blue. In the foreground, the white dome and part of a resort building with a pool and umbrellas are visible.
